

## New Patient Information:

Please arrive 20 minutes before your scheduled appointment time to complete paperwork, we can also e-mail, mail, or fax the paperwork to you. New patient forms can also be found on our website in the patient information tab. Our office makes every effort to run on time and having the paper work completed prior to your appointment will avoid an unnecessary wait.

It is extremely important to bring your insurance card and a list of any medications you are currently taking. If there is a written referral, it is very important to have that with you as well.

It is imperative for us to have an accurate health history, so please bring a list of any unrelated medical conditions. If you have been treated by another physician for this problem, bring a list of all medications you have been given. If necessary we may need to contact your other provider for the medication name.

Please make sure you have informed the receptionist regarding all issues you would like addressed and we will try our best to evaluate all of your concerns. Although it may be necessary to schedule more than one appointment to effectively address all of your concerns.

When the patient is a minor, please make sure a parent accompanies the child on the first visit, as there are consents and paperwork to sign. Our hope is to provide the best possible care in a manner most efficient for you.

We are located on the west side of Henry Mayo Hospital at 23861 McBean parkway suite E-21 in Valencia,
